

FRENCH MARITIME SPACES

Scale 1 : 32 785 000 (at the equator)

Mercator projection

Legal references of maritime limits
may be checked on the french national portal of maritime limits
(www.limitemaritimes.gouv.fr)

- Territorial sea [1]
- Exclusive economic zone (EEZ) [1]
- Extended continental shelf over the 200 nautical miles [2] (Article 76 of the United Nations Convention on the Law of the Sea (UNCLOS))
- Maritime boundary agreement between States, decision of an international jurisdiction or external limit of the EEZ (200 nautical miles)
- External limit of the continental shelf as recommended by the Commission on the Limits of the Continental Shelf (CLCS) or as agreed between States

[1] : Some maritime spaces limits claimed by France and displayed on this document have not been agreed with the neighbouring States. Those informations are just indicative.
[2] : Only the extensions of the continental shelf recommended by the CLCS Commission and not shared with neighbouring countries are displayed on this document.
